Buying NAPA, Baldwin, Donaldson, or other?  
Protect with the best— Fleetguard

Ask your local Papé Machinery dealership for details today!

## John Deere Filters

### Oil Filters

Dirt in oil will slow you down, leading to decreased productivity and shorter service intervals. That's why John Deere oil filters are tested to make sure they capture more dirt than lesser-quality filters.

### Air Filters

John Deere air filters are another high-quality line of defense against contaminants invading your engine. They reduce engine wear by removing dust, dirt and other pollutants from intake air.

### Fuel Filters

John Deere fuel filters have coated media that keep water out, preventing rust and microbial growth that could damage your fuel and lead to poor fuel economy.

# Hydraulic Hoses

## Increase Uptime

Crimping your hoses gets you back up and running quickly

## John Deere Fab Guide

Exclusive access to recipes delivers the fastest options for you

## Equipment Program

Options to meet your production needs, large or small

## Efficiency Through Partnership

Local support for production selection, applications and equipment

## Use Ultra Clean hose cleaning and sealing on all your hose assemblies

- Quick and easy
- Cost-effective
- Inhibits downtime
- Reduces contaminants

# StrongBox

For power and long life  
Free replacement warranty  
Anchored-plates for greater vibration resistance  
Designed and engineered specifically for John Deere equipment  
Higher specifications than competitive aftermarket batteries  
15 Activated StrongBox options available

15% lower price than dry. Accurately filled and activated at the factory. Statistically lower warranty rates than dry equivalent.

# Fuel Conditioners

## FUEL PROTECT DIESEL FUEL CONDITIONERS

### Fuel Conditioner:

Boosts fuel's cetane number for faster and more fuel-efficient starting

- Detergents clean injectors and help prevent performance erosion while cleaning the entire fuel system.
- Winter formula has a de-icer additive to prevent ice formation in fuel lines.
- Lubricants protect and reduce the injector and pump wear.
- Minimizes smoking.
- Increases a fuel's thermal and storage stability.
- Maintains fuel pump warrant.

Winter Formula has cold flow improvers to increase engine operability 10°C (18°F) below the fuel cloud point.

### Fuel Protect Keep Clean

Diesel injectors are specially formulated to restore and maintain performance in engines with modern high pressure and legacy diesel fuel systems, including injector sticking, misfiring, rough idling, excessive exhaust smoking, power/fueling loss and hard starting.

### FUELSAVER™ (Antimicrobial Agent)

When water gets into your fuel tank, bacteria and fungus can invade and rob engine performance. Microbes that live and grow in your fuel, corroding fuel system components and plugging fuel lines, filters and pumps. FUELSAVER is an effective antimicrobial agent and an EPA-approved biocide and fuel additive for today's biodiesel and ultra-low-sulfur fuels.

# Coolant

## COOL-GARD™ II

Get six years of cooling-system protection with Cool-Gard™ II

Cool-Gard II is an extended-life nitrate-free engine coolant. It uses a proprietary blend of corrosion inhibitors that prevent wet-sleeve liner cavitation, foaming, rust, scale and corrosion of the metals in the cooling system. It is designed to withstand thermal oxidation and breakdown due to the higher heat loads typically found in new, advanced engine technology applications.

# Diesel Exhaust Fluid (DEF)

John Deere DEF is compatible with all engines using selective catalytic reduction (SCR) aftertreatment technology. This includes John Deere diesel engines and equipment, off-road and stationary equipment, on-road trucks, and automobiles. With John Deere DEF, you can be confident you are getting a high-quality product that will provide unsurpassed performance while protecting your equipment investment. Simplify your operation by integrating John Deere DEF into your fluid maintenance routine.

- Convenient container sizes
- Translucent containers to monitor fluid levels
- Non-toxic, non-hazardous and non-flammable
- Dispense nozzle included with each jug
- Drums outfitted with 2-inch bung opening for direct-pump or closed system dispensing valve and drop tube installation
- Forklift access beneath tote cage for ease in handling
- ISO 22241-compliant
- American Petroleum Institute (API) certified
- Totes include integrated closed system dispensing valve and drop tube

## Typical Usage Rates\*

JOHN DEERE ENGINE	RATE
6.8 L	0.4 L/hr (0.1 Gal/Hr)
9.0 L	0.8 L/hr (0.2 Gal/Hr)
13.5 L	1.1 L/hr (0.3 Gal/Hr)

\*DEF usage rates shown are based on an average for typical engine duty cycles. DEF consumption is primarily a function of engine speed and load. Actual results may vary.

## DEF Diesel Exhaust Fluid

## TORQ-GARD™ ENGINE OIL

### Hardworking, standard-interval engine oil

- Neutralizes acid to reduce corrosion
- Provides sludge control for cleaner engines
- Offers many viscosity grades for applications in moderate-to-cold operating temperatures
- Low-temperature fluidity for reduced engine start-up wear
- 250-hour standard drain intervals

Available in  
15W-40, 10W-30,  
5W-30, 30 and 10W.

# Optimized Machines. Optimize Uptime.

Over the last few years, new technology has drastically changed the way capital equipment operators use their machines. These innovations translate machine information into tangible data so machine owners get the most out of their capital equipment and maximize profitability.

Papé Machinery Construction & Forestry keeps you moving with comprehensive technology solutions including:

- JDLink™
- Machine Monitory Center
- Connected Support
- Topcon Grade Control
- Jobsite Drones
- Payload Weighing

# Hydraulic Fluid

## HITACHI OIL EX-46HN

- Factory fill for excavators
- ISO 46
- Service life of 4,000 hours
- Zinc-free to reduce sludge generation
- Protection against rust and corrosion
- Resists oxidation; stops sludge and varnish
- Reduces metal wear

PART NUMBER	SIZE

# Ultimate Uptime

Powered by Papé PLUS

## GIVE YOUR PRODUCTIVITY AND BUDGET A PAPÉ PLUS.

### What is Papé PLUS?

It is an enhanced periodic maintenance and added value service that uses WorkSight™ technologies as the tools to enable them.

- Proactive Alert Management
- Remote Diagnostics & Programming
- Planned Maintenance Agreements

### You do your part...We'll do ours.

You decide what to cover and for how long, and together we calculate the hourly rate. You'll see right away how Papé PLUS will save you money and provide the ability to set a fixed cost of operation. Backed by John Deere's WorkSight Suite of technology, let Papé Machinery be your equipment manager. Many new machines include up to 2 years and 1,500 hours of Papé PLUS.

### What are added value services?

- Extended Warranty
- Service Advisor Remote
- FleetCare DTC Alerts
- JDLINK
- FleetCare PM Alerts

Ask your CSA about a Papé PLUS package for your machine. Finance your extended warranty, JDLINK™, and Periodic Maintenance into one of our three finance offers that meet your needs.

### Optimize Your Operation

Papé PLUS is a customizable support solution. This flexible offering is designed to improve your profitability by maximizing productivity and uptime while lowering daily operating costs.

### Your Plan Includes

- Pre-delivery inspection & customized setup
- Delivery walk around with operators and site personnel
- Warranty repairs performed by factory certified technicians
- Use of John Deere genuine parts and fluids
- Machine Health alert notifications
- Basic warranty for 12 months and unlimited hours
- Machine loaner during basic warranty
- No travel time or mileage charges during basic warranty
- Full Machine inspection prior to basic warranty inspection
- JDLINK Ultimate subscription for 5 years or until extended warranty expiration
- Customized PM Agreements

# PAPE<sup>+</sup>

## Machine Monitoring Center

Papé Machinery's Alert Management Center monitors and interprets JDLINK machine-health alerts, oftentimes before the operator is even aware that a problem exists. This data coupled with the Remote Diagnostic capabilities integrated in your connected machine can provide us with critical information to determine what steps can be taken to minimize or even eliminate downtime. So even if you don't have JDLINK set to send you alerts, we will know when something needs attention.

# GRIND STRONG. MORBARK STRONG!

## WITH MORBARK® ALPHA® INSERTS

Morbark® Alpha® Inserts are designed for your most difficult grinding applications and give you high value and return on your investment. Morbark holds a patent on the Alpha forged blank that allows them to provide more tungsten-carbide mixture on each Alpha insert for longer wear life than competitors' inserts.

Papé understands that every customer and every application is different. Some customers are looking for the highest quality grinder insert with the best value over time. Others process lower volumes and are looking for a good insert at a low cost. That's why we offer three variations of Morbark's popular Alpha Inserts: The Alpha 1 (Good), Alpha 2 (Better) and Alpha 3 (Best), each with a different level of carbide saturation.

**Whichever you choose, Alpha Inserts will lead the pack for you!**

### ALPHA INSERT APPLICATION GUIDE

**Alpha 3**  
Lasts 50–100%  
Longer Than Alpha 2

**Alpha 2**  
The Original &  
Most Popular Insert

**Alpha 1**  
Reliable &  
Cost Effective

#### FEED MATERIAL

	Alpha 3	Alpha 2	Alpha 1
<b>Regrind</b> (Second Pass Material)	Best	Better	Good
<b>Greenwaste</b> (plants, shrubs, grass, leaves)	Best	Better	Good
<b>Forestry Residue</b> (stumps, branches, tree tops)	Best	Better	Good
<b>Whole Logs</b> (clean logs)	Good	Good	Good
<b>Scrapwood</b> (pallets, demo material)	Best	Good	Good
<b>Construction &amp; Demo</b> (storm cleanup, building demolition)	Best	Good	Good
<b>Municipal Solid Waste</b> (garbage, landfill waste)	Best	Good	Good
<b>Asphalt Shingles</b> (tear off roofing shingles)	Better	Good	Not Recommended
<b>Industrial Recycling</b> (plastics, wood composites)	Good	Good	Good

**Pallet Pricing Starting at \$11.70 Each | Ask About Our No Interest, No Payment Powerplan Options**

Ask about our chipper knives, feed chains, grates, anvils, conveyor belts and more.

# Wear Items Solutions

## Ground Engaging Tools

Cutting Edges—Protect your investment!

Ensure ultimate uptime for your machine by properly managing its cutting-edge system to help improve productivity, reduce machine downtime and ultimately lead to higher returns on your investment. We have a full line of cutting-edge products that can be your solution regardless of application. Once we know your application, we can suggest solutions that will work best for you.

- Grader Edges
- Stinger & Scarifier
- Jagz
- Standard Cutting Edge

## TK- Series Tooth System – Why it's better.

The TK-Series System is engineered to deliver maximum performance, quick and safe replacement and superior tooth retention.

Worksite Safety:

No hammers or pry bars—a simple socket wrench is all you need for quick and safe tooth removal. Put the hammer down! Installing and removing TK-Series bucket teeth is a simple, three-step process

## All-Makes Steel Undercarriage

Our undercarriage offers innovative, efficient, reliable and economical range of solutions for your undercarriage needs—whether it is for bulldozers, excavators, old machines or special designs; we specialize in providing you with the right solution for your specific requirements.

## Rubber Tracks

Our rubber tracks are designed with a lug pattern that effectively reduces noise and vibration for a significant decrease in operator fatigue. Downforce has been decreased for excellent driving performance and flotation on soft ground and inclines.

## JOHN DEERE POWERTRAIN RELIFE PLUS MACHINE REBUILD PROGRAM

Give your machine new life — and keep it running — with these six simple steps:

STEP

### 1 START

by replacing required major powertrain components\*

STEP

### 2 REVIEW

results of machine evaluation with dealer

STEP

### 3 SPECIFY

any additional parts to replace

STEP

### 4 SELECT

ReLife warranty terms

STEP

### 5 WORK

is performed on your machine by certified John Deere dealer technicians

STEP

### 6 LET YOUR RELIFE MACHINE HELP MANAGE OWNING AND OPERATING COSTS

\*Major powertrain components vary by model. See your dealer for details.

## ReLife Warranty

We stand behind our products, which is why we provide a standard one-year warranty on all John Deere Reman components when installed by your authorized John Deere dealer.

We understand that doing business involves risk, so we're letting you choose how to protect your investments. With the Powertrain ReLife Plus program, you can extend the warranty coverage on major powertrain components replaced under the program to three years/5,000 hours or two years/6,000 hours (three years/3,000 hours for all Scraper Tractors).

## Reman

### Time running out on your machine?

Extend your machine's life with the John Deere Reman Reload Program! Time takes a toll on your machine's powertrain. With the John Deere Reman Reload program, you can extend the life of your machine, while keeping your operating costs low. The program includes:

### Reman Components

John Deere/Hitachi Dealer installed – 12 months  
Parts & Labor\*

Reman John Deere/Hitachi Dealer installed – 12  
months Parts & Labor\*

\*On selected parts. Some restrictions may apply. See dealer for complete details.

### Rebuilt or Reman?

**REMAN = Better Parts, Better Support,  
Real Fast.**

Reman engines from Deere have better turnaround time, 100% Deere parts and are tested to OEM specifications.

# Join the Papé team today!

## WHY WORK FOR PAPÉ?

At Papé Machinery Construction & Forestry, we're always searching for driven, dedicated, intelligent individuals to join our team. As a family business built on generations of hard work, we know how important it is to hire employees committed to excellent service. At every level of our company, from our administrative staff to our repair technicians, you'll find people who love their work and love going above and beyond for our customers. If that excites you, fill out an application today. We can't wait to meet you!

The Papé Group is an Equal Employment Opportunity (EEO) employer and welcomes all qualified applicants. Applicants will receive fair and impartial consideration without regard to race, sex, color, national origin, age, disability, veteran status, genetic data, religion or other legally protected status.

## Benefits We Offer

- Retirement Plan & 401(k) Matching Program
- Health Insurance
- Dental Insurance
- Vision Insurance
- Prescription Insurance
- Health Reimbursement Account (HRA)
- Flexible Spending Accounts (Flex Plans)
- Life Insurance
- Short- and Long-Term Disability Insurance
- Progressive Paid Holiday & Vacation Plans
- Online and Instructor-Led Training
- Professional Work Environment
- New and Rewarding Opportunities in our Growing Company

## Our Technician Training Program

The Papé Machinery Construction & Forestry Technician Training Program offers the comprehensive, specialized training you need to succeed as a service technician. Under the supervision of expert instructors, participants learn about the fundamentals of construction and forestry equipment, from diesel engines to drivetrains.

Graduates of the program may be offered a field technician or shop technician position with Papé Machinery Construction & Forestry at one of our locations throughout the West.

Papé Machinery will reimburse half of your out-of-pocket tuition costs.

After completing the program, Papé Machinery will incrementally reimburse your remaining out-of-pocket tuition over your first two years of employment with us.

Students may conduct a cooperative work experience (CWE) during school breaks at one of Papé Machinery's locations. If accepted, you will gain invaluable on-the-job-training.

Interested in joining the Papé team? See current job openings and apply at [about.pape.com/careers](http://about.pape.com/careers).
